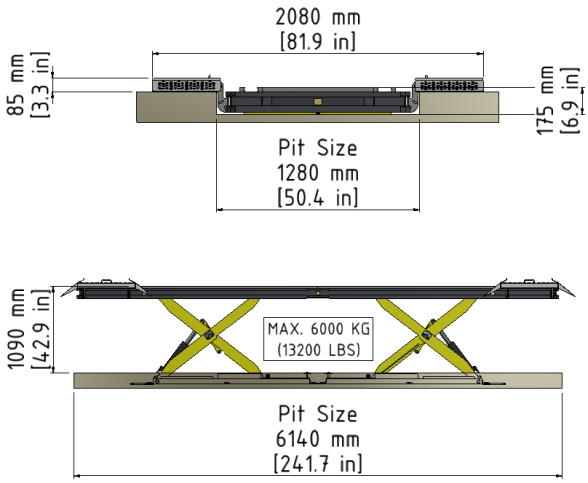
In-Ground Benches

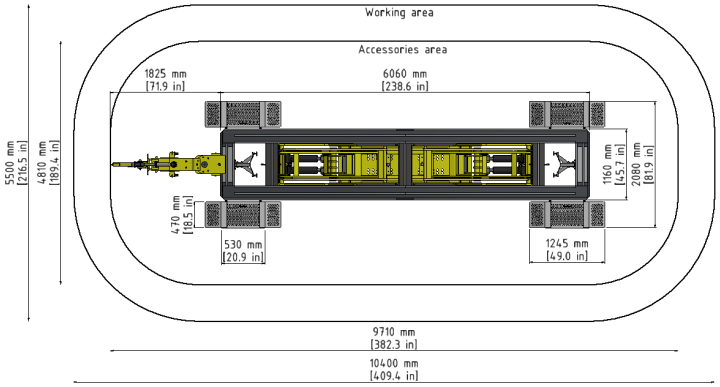
CRS6000T In-Ground

The UnoLiner CRS6000T In-Ground is an extremely powerful and versatile collision repair system. Two strong L36 scissor lifts provide an impressive lifting capacity of 6000 kg, even when pushing all this weight from the ground up with the bench's sides level with the floor. Its bench frame is six meters in length and features a two-way locking system that allows for easy placement and combining of drive-on ramps, multiple accessories and pulling towers all around the bench. The included hinged and detachable drive-on ramps make vehicle placement a breeze.

Features

- 6 ton lifting capacity
- Bench sides level with the ground
- Two-way locking system
- Multiple-angle 10-ton pulling ability
- Mechanical and hydraulic safety systems

Technical data




Bench frame length	6060	mm
Bench frame width	1160	mm
Min. bench height	30	mm
Max. bench height	1090	mm
Max. load weight	6000	kg
Width incl. ramps	2080	mm
