## P2060 Pneumatic Hydraulic Pump

The UnoLiner high pressure P2060 Pneumatic Hydraulic Pump for use with the UnoLiner **P10 Draw Aligner** and the UnoLiner **P20 vector pulling set** is a versatile and easy to use 700 bar high pressure hydraulic pump using your in house air compressor to supply the 7.5 bar of pneumatic pressure to activate the power of this hydraulic pump

### Features

- Required pneumatic pressure 7.5 bar
- Working maximum hydraulic pressure 700 bar
- For use with the UnoLiner P20 Vector Pulling Set
- For use with the UnoLiner P10 Draw Aligner
- Perfect for workshop applications requiring high pressure hydraulics

### Technical data

| | | |
|---|---|---|
| Maximum hydraulic pressure | 700 | Bar |
| Required Pneumatic pressure | 7.5 | Bar |
| Hydraulic oil quntity | 2.5 | Liter |
| Hydraulic oil specification | ISO 32 and ISO 46Hydrualic Oil | |
