Pulling and Pushing

P10 Draw Aligner

The UnoLiner P10 Draw Aligner: the complete pulling tower system. The P10 Draw Aligner is compatible with all UnoLiner straightening benches. Because of its horizontal and vertical hinging, the P10 can be positioned 360 degrees around a vehicle. UnoLiner's one-bolt locking system enables fast and secure attachment to any UnoLiner straightening bench.

Features

- 360 degrees positioning on frame
- Packs 10 tons of pulling power
- Compatible with all UnoLiner alignment benches
- Multiple hydraulic cylinder attachment points
- Quick Lock one-bolt locking system
- Simultaneous 10-ton pulling with multiple P10s

Technical data

Pulling power	10	tons
Horizontal positioning	180	degrees
Vertical arm positioning	84	degrees
Pulling tower height from bench	1310	mm
Pulling Tower Extension (option)	875	mm
Positioning on frame	360	degrees
