Roll-Over Benches

CRS4600-RO

The UnoLiner CRS4600-RO Bench is a great all-round solution for car repair companies dealing with a wide variety of vehicles. This straightening bench boasts a frame bench length of 4.6 meters and is suitable for the L30 and L36 lift, offering its user a choice between a lifting capacity of 3000 kg and 4600 kg. It is ideal for repairing and restoring cars of all sizes, crossovers, MPVs, SUVs, pickup trucks, all-terrain vehicles, and light commercial vehicles. RO stands for roll over, which means the drive-on ramps have been omitted to save costs and space, enabling its user to secure this frame machine to the shop floor or install it in-ground.

Features

- Mechanical and hydraulic safety systems
- 3 or 4.6 ton lifting capacity
- Multiple-angle 10-ton pulling ability
- Interchangeable UnoLiner accessories
- In-ground placement possible
